

TABLE OF CONTENTS

| | | |
|--------------------|--|-----------|
| 1 Chapter 1 | Introduction | 1 |
| 1.1 | Background & Significance..... | 1 |
| 1.2 | Renewable energy scenario in India: an overview... | 6 |
| 1.3 | Bioenergy, Biomass and Biofuels..... | 8 |
| 1.4 | Rationale and motivation for promoting Renewable energy especially Green diesel/biodiesel in India... | 13 |
| 1.5 | Rationale for choosing Jatropha and Algae for current study..... | 14 |
| 1.6 | Business Problem..... | 15 |
| 1.7 | Significance of the study..... | 16 |
| 1.8 | Organization of the Report..... | 16 |
| 1.9 | Concluding Remarks..... | 18 |
| | | |
| 2 Chapter 2 | Literature Review & Research Methodology..... | 20 |
| 2.1 | Introduction..... | 20 |
| 2.2 | Literature Review..... | 20 |
| 2.2.1 | Review on Jatropha..... | 21 |
| 2.2.2 | Review on Algae..... | 23 |
| 2.3 | Inference drawn from the Literature review..... | 26 |
| 2.4 | Research Gap..... | 27 |
| 2.5 | Research Questions..... | 27 |
| 2.6 | Research Objectives..... | 28 |
| 2.7 | Research Methodology..... | 28 |
| 2.8 | Concluding Remarks..... | 32 |

| | | |
|--------------------|---|-----------|
| 3 Chapter 3 | Value Chain of Jatropha..... | 34 |
| 3.1 | Introduction..... | 34 |
| 3.2 | Jatropha Curcas..... | 34 |
| 3.3 | Comprehensive Value chain of Jatropha curcas..... | 39 |
| 3.3.1 | Jatropha Cultivation & Harvesting..... | 40 |
| 3.3.2 | Oil Extraction..... | 42 |
| 3.3.3 | Oil & Seed Processing..... | 47 |
| 3.3.3.1 | Oil Processing..... | 47 |
| 3.3.3.2 | Seed processing | 60 |
| 3.3.4 | End Combustion of Green diesel..... | 62 |
| 3.4 | Concluding Remarks..... | 62 |
| 4 Chapter 4 | Value Chain of Algae..... | 63 |
| 4.1 | Introduction..... | 63 |
| 4.2 | Algae..... | 63 |
| 4.3 | Algal Physiology for lipid synthesis..... | 64 |
| 4.3.1 | Physiology of lipid synthesis..... | 65 |
| 4.3.2 | Effect of various external factors on physiology of lipid Synthesis..... | 68 |
| 4.4 | Growth Techniques..... | 77 |
| 4.5 | Comprehensive Value chain of Algae..... | 80 |
| 4.5.1 | Algae culture and Harvesting..... | 80 |
| 4.5.1.1 | Algae culture..... | 80 |
| A. | Open and Closed systems for algae culture..... | 80 |
| B. | Role of external factors and physiology on Photobioreactors design considerations..... | 83 |
| C. | Closed reactor comparison..... | 88 |
| D. | New technologies for enhanced growth, productivity and cost reduction for biofuel | |

| | | |
|---------|--|-----|
| | production from algae..... | 89 |
| 4.5.1.2 | Microalgal Harvesting | 97 |
| A. | Harvesting Technologies..... | 98 |
| B. | Integration of different harvest techniques..... | 105 |
| 4.5.2 | Oil extraction..... | 105 |
| A. | Pre-treatment: Cell disruption methods..... | 106 |
| B. | Oil extraction methods..... | 107 |
| C. | Algae oil properties and composition..... | 109 |
| 4.5.3 | Oil & Biomass processing..... | 110 |
| 4.5.3.1 | Oil processing..... | 110 |
| 4.5.3.2 | Biomass Processing..... | 114 |
| A. | Thermo-chemical conversion..... | 115 |
| B. | Biochemical conversion..... | 118 |
| 4.6 | Concluding Remarks | 121 |

| | | |
|--------------------|---|------------|
| 5 Chapter 5 | Life Cycle Assessment of Jatropha Green Diesel System..... | 124 |
| 5.1 | Introduction..... | 124 |
| 5.2 | Challenges of Jatropha Green diesel production system..... | 125 |
| 5.3 | Suitable agronomical practices..... | 131 |
| 5.4 | Genetic diversity of Jatropha curcas germplasm (Challenges) | 136 |
| 5.5 | Possible benefits of improved agricultural practices & germplasm improvement..... | 137 |
| 5.6 | Other important challenges..... | 138 |
| 5.7 | Life cycle Energy Balance..... | 139 |
| 5.7.1 | Goal & Scope..... | 139 |
| 5.7.2 | System Boundaries..... | 140 |

| | | |
|-------|---|-----|
| 5.7.3 | Methodology..... | 142 |
| 5.7.4 | Calculations and parameters considered for study.... | 144 |
| 5.7.5 | Jatropha cultivation & Harvesting at the identified Site..... | 147 |
| A. | Nursery raising | 147 |
| B. | Plantation in field..... | 148 |
| 5.7.6 | Oil extraction carried out in the biodiesel lab..... | 151 |
| 1) | Decortication..... | 151 |
| 2) | Seed pressing..... | 151 |
| 3) | Filtering of oil..... | 152 |
| 5.7.7 | Oil & Seed cake processing..... | 152 |
| A. | Oil processing..... | 152 |
| B. | Seed cake processing | 154 |
| 5.7.8 | End combustion of Green diesel..... | 156 |
| 5.7.9 | Results and discussion..... | 157 |
| A. | Comparison with previous studies..... | 159 |
| B. | Net energy and CO ₂ emissions result | 161 |
| 5.8 | Cost of Green diesel production..... | 164 |
| 5.9 | Concluding Remarks..... | 166 |

| | | |
|--------------------|--|------------|
| 6 Chapter 6 | Life Cycle Assessment of Microalgae Green Diesel Production System..... | 168 |
| 6.1 | Introduction..... | 168 |
| 6.2 | Life Cycle Energy Balance..... | 169 |
| 6.2.1 | Goal, scope and system boundaries..... | 169 |
| 6.2.2 | Microalgae (<i>Chlorella vulgaris</i>)..... | 171 |
| 6.2.3 | Methodology..... | 172 |
| 6.2.4 | Calculations and study parameters..... | 174 |
| 6.2.5 | Microalgae culture & Harvesting..... | 178 |

| | | |
|-------|--|-----|
| A. | Microalgae culture..... | 178 |
| B. | Microalgae Harvesting & Drying..... | 183 |
| 6.2.6 | Oil Extraction..... | 191 |
| 6.2.7 | Oil and Biomass processing..... | 193 |
| A. | Oil Processing..... | 193 |
| B. | Biomass processing..... | 195 |
| 1) | Dry Route (Pyrolysis)..... | 195 |
| 2) | Wet Route (Hydrothermal Liquefaction)..... | 197 |
| 6.2.8 | End combustion of Green diesel..... | 199 |
| 6.2.9 | Results & discussion..... | 201 |
| 6.3 | Cost of Green Diesel Production | 204 |
| 6.4 | Concluding Remarks..... | 206 |

| | | |
|--------------------|---|------------|
| 7 Chapter 7 | Comparative study of Jatropha and Microalgae based Green diesel production system..... | 207 |
| 7.1 | Introduction..... | 207 |
| 7.2 | Agronomical practices and challenges..... | 208 |
| 7.3 | Technical viability..... | 209 |
| 7.4 | Environmental acceptability..... | 210 |
| 7.5 | Economic competitiveness..... | 211 |
| 7.6 | Way forward for Jatropha as an energy crop..... | 212 |
| 7.7 | Concluding Remarks..... | 215 |
| References | | 217 |
