
ACKNOWLEDGEMENTS

Although words are never enough to express my profound feelings of gratitude to the people who helped me to carry out this study by providing support all the way from selection of suitable topic to thesis submission, but, I found no other way to make a sincere effort in conveying my deep gratitude.

I thank the University of Petroleum and Energy Studies (UPES), Dehradun and my work organization, the Atomic Energy Regulatory Board, Mumbai for providing all the necessary facilities and support for effectively carrying out my research work. I thank my supervisor, **Dr. Prashant S. Rawat**, for his patient guidance, inspiration and advice he has provided throughout this study. I was extremely lucky to have a supervisor who cared and took so much interest about my work, and responded to my questions and queries promptly. I am thankful to my external supervisor, **Dr. Avinash U. Sonawane**, for his continuous encouragement and support for this study. He always enlighten me from his novel ideas in during this research work.

I must express my gratitude to the **Dean, School of Engineering Studies** and doctoral committee members who took personal interest in my work and guided me for further enhancement of the study content. I appreciate the efforts of the members of CCE, UPES, especially the DRFs who helped me during the initial days at the University.

Most importantly thank goes to my parents, wife and sweet daughters who supported unconditionally in my personal life to keep me high during my study to complete it successfully.
