

## List of figures

1.1	Number of Fatalities, Selected Construction Occupations, 2008-2010 (CPWR Construction Chart).....	20
1.2	Pareto Principle.....	22
1.3	Hierarchy of Control.....	22
1.4	Risk Management Process and Risk Matrix.....	24
31	Risk Matrix.....	47
32	Circular Saw without Any Guard.....	49
33	Fixed Type Saw Guard Made of Steel Plate.....	50
34	Suspended Saw Guard Made of Steel Plate.....	51
35	Saw Guard with Integrated Sensor.....	52
36	Flowchart for Automatic Sensor Based Guard.....	53
37	Circular Saw Guarded With Flap Type Acrylic Material.....	55
38	Details of Various Components of Guard.....	57
39	Photo of Type V Circular Saw Guard.....	59
41	Chart Showing Unsafe Acts or Conditions.....	66
42	Chart Showing Near-miss Cases Related to Ladder ...	66
43	Graph Showing the Change of Risk Level.....	69
44	Schematic Showing Ladder Placed at Different Angles.....	71
45	Chart Showing Force and Required Co-efficient of Friction at Various Angles... ..	75
46	Deflection Versus Span Length Graph.....	76
47	Impact of Vibration on Ladder.....	79
48	Details of Latching System.....	80
49	Sketch of a Latched Ladder.....	81
51	Graph showing variation of force and velocity at various angles.....	87
52	Schematic Layout of Unloading Arrangements for Gas Cylinder	88
53	Schematic Layout of Unloading Arrangements for Gas Cylinder Using Mobile Ramp.....	89
54	Schematic Layout of Unloading Arrangements for Gas Cylinder Using Fixed Ramp.....	90
55	Flowchart of Gas Cylinder Handling.....	92

61 Chart Showing Various Illness Related to Welding.....102  
62 Photo of a Local Exhaust Ventilation System.....103  
63 Ventilation System for Welding Pipes.....106  
64 Ventilation System for Structural Steel.....107  
65 Schematic Diagram of Ventilation System .....109  
66 Analysis of Effectiveness at Various Angles .....110  
71 Modified Helmet With A Seat For Head Load... ...119  
81 Induction Sensors Placed Inside the Helmet..... 126
